 Blooms: Aug, Sept, Oct
 Color: Purple

Swamp Milkweed *Asclepias incarnata*
 Sun Exposure Full sun or part shade
 Soil Moisture Wet to Medium
 Bloom Time June—August
 Color Pink
 Height 4 feet

Live Plants

- Live plants from nursery will come as small plugs (or larger); cells are 5" deep x 2" wide at top or 4.5" deep x 2" Cone.
- Immediate care: remove plants from container as soon as possible and water thoroughly.
- Plant in the ground or a larger pot.
- Keep area around plants weed free, especially during the first growing season.
- Watering is important during the first growing season. Make sure the plants do not go dry for the first 3-6 weeks; water deeply to allow formation of deep drought and frost resistant roots. Once established, native plants can withstand extreme weather.
